

TECHNIC THREE-PHASE

Generating set

TECHNIC THREE-PHASE PORTABLE
POWER GENERATING SET.

1 Is the fuel level high enough?

yes

Go to the next
question.

no

Using a funnel and a jerrican, fill with fuel. Make sure that the filter stays
in place during this operation!

2 Are the petrol switch and tap open?

yes

Go to the next
question.

no

Set the switch to 1 and open the tap.

3 Is there enough oil in the engine?

yes

Go to the next
question.

no

With a funnel, add oil up to the mark indicated on the casing.

TECHNIC THREE-PHASE

Generating set

TECHNIC THREE-PHASE PORTABLE
POWER GENERATING SET.

4 Is the spark plug in good working order?

yes

Go to the next question.

no

Use a spark plug wrench to replace the spark plug.

5 Does the petrol reach the carburettor?

yes

Go to the next question.

no

Check using a flat screwdriver. If the petrol does not reach the carburettor, return your genset to the ASS.

6 Is the switch properly engaged?

yes

Go to the next question.

no

Engage the switch.

TECHNIC THREE-PHASE

Generating set

TECHNIC THREE-PHASE PORTABLE
POWER GENERATING SET.

7 Is the battery connected, with the + and - terminals the correct way round?

yes

Your genset
is ready
for start-up.

no

Connect the battery with the correct polarity. Check that the battery contains acid. Turn the key.
